

Express®

**NPE
FREE**

Experience the power of chlorine dioxide *in an economical, convenient concentrate*

Premium Protection

- ✓ Chlorine dioxide germicide swiftly kills all major mastitis causing organisms including Staph, Strep, Mycoplasma, molds and yeasts
- ✓ Chlorine dioxide is highly effective under organic load
- ✓ LAS, Express's secondary germicide, provides germicidal persistency, ensuring teats are protected right up to the next milking
- ✓ **Effective teat marking** to verify teats are being properly dipped milker to milker and milking to milking

Express for Predipping

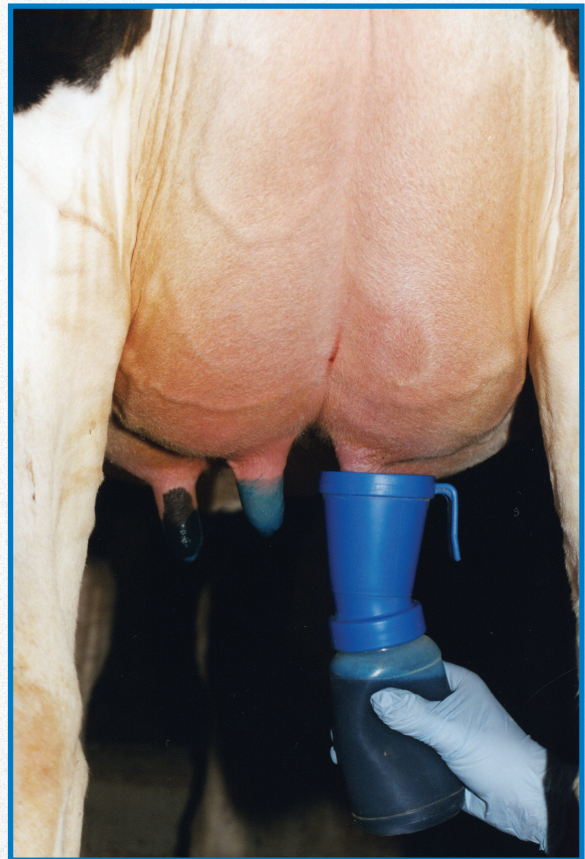

- ✓ Designed to thoroughly clean teats and kill mastitis causing organisms quickly and efficiently before milking
- ✓ 15-second kill – a real plus in a time-critical process
- ✓ Yellow marking for easy identification

Convenient Mixing

- ✓ Automatic mixing pumps makes having freshly activated product a breeze for each milking
- ✓ Available in sets of 15, 55 or 300 gallon containers
 - Set of 15's = 300 gallons of ready-to-use product
 - Set of 55's = 1,210 gallons of ready-to-use product
 - Set of 300's = 6,600 gallons of ready-to-use product (blue only)

Express for Postdipping

- ✓ The same fast, broad spectrum kill, even effective on Mycoplasma
- ✓ Bright blue or yellow marking readily identifies dipped teats
- ✓ Emollients to keep teat skin healthy

Experience the Power of Chlorine Dioxide. Experience the Power of Express.
